

One of the beneficiaries of the funds raised this evening is the research program at the Southwest College of Naturopathic Medicine in collaboration with Arizona State University under the direction of Dr. Robert Waters.

Robert Waters earned his Ph.D. in Molecular Genetics from Montana State University (1975) with an emphasis in Biochemistry and Mathematical Statistics.

Dr. Waters is currently teaching Medical Biochemistry I & II; Medical Genetics, Statistics, and Research courses at Southwest College of Naturopathic Medicine.

The College's president, Dr. Paul Mittman, serves on numerous boards including Tempe Community Action Agency, Tempe's primary provider of social services to the working poor, the homeless and the elderly.
